### Professional Experience

#### Teaching Experience

**1999 - 2003    ASSISTANT PROFESSOR, MAHARISHI UNIVERSITY**

Taught traditional photography, digital photography, graphic design, multimedia, and Web design. Maintained university digital media lab equipment and software. Developed both traditional courses and distance learning classes for the Digital Media section of the art department. Assisted other departments in developing courses for the web. Researched and purchased new equipment for computer labs.

**1996 - 1999    DIRECTOR OF TECHNOLOGY / INSTRUCTOR, ILLINOIS INSTITUTE OF ART, CHICAGO, IL**

Accountable for all information technology functions at two college campuses. Supervised a staff of 12 and maintained 600 computers with their assistance. Computer labs utilized Apple, Linux, and Windows operating systems on both administrative and classroom systems. An annual budget of \$750,000 for capital spending and \$350,000 for annual expenses. Created courses for multiple departments and assisted other department chairs and faculty in course development. Designed hardware and software environments for course instruction. Taught digital media courses when required.

**1994 - 1996    TEACHING ASSISTANT, COLUMBIA COLLEGE CHICAGO, CHICAGO, IL**

Assisted faculty in darkroom and studio photography classes for all levels of undergraduate courses. Assisted all levels of students in open darkrooms and digital media labs. Maintained photographic chemistry in darkrooms.

## Related Work Experience

### **2018 - PRESENT    DIRECTOR WEB SERVICES, TEXAS A&M-SAN ANTONIO, SAN ANTONIO, TX**

Manage team responsible for all university websites and web applications. Design and manage websites using Cascade, Adobe Suite, web browsers, and text editors. Instruct new users in Cascade. Build websites using frameworks to create responsive mobile-friendly pages. Member of campus-wide accessibility committee. Ensure websites are section 508 and WCAG compliant. Work with other ITS members to ensure a secure environment. Work with faculty and staff to create websites that meet their needs and the needs of the students while ensuring that content is accessible and secure. Member of the Campus Art and Grounds Aesthetics Committee.

### **2001 - PRESENT    APP DEVELOPER, C-130 GAMES, LLC, SAN ANTONIO, TX**

Create smartphone applications from conceptualization to app store launch, including complete in-house content creation. Provide solutions for an organization's smartphone and web-based applications in addition to consulting and guiding an organization on different phases of app development.

### **2014 - 2018        FLIGHT ENGINEER C-5M, 68 AIRLIFT SQUADRON, LACKLAND AFB, TX**

Performs aircraft inspections. Performs aircrew visual inspection; non-scheduled aircraft maintenance; and preflight, through-flight, and postflight inspections of aircraft away from home station. Operates and monitors engine and aircraft systems controls and indicators. Assists pilot or performs engine starts, and monitors run-up, flight operations, and engine shutdown. Operates engine controls to provide desired efficiency and economy. Monitors engine instruments throughout the period of operation. Controls, monitors, and regulates some or all of the following aircraft systems, hydraulic, pneumatic, fuel, electronic, air conditioning, pressurization; ventilation; auxiliary power unit; and lubrication communication, navigation, countermeasures, radar, and depressurization and system failure. Observes warning indicators and light for fire, overheat, depressurization, and system failure. Reports abnormal conditions to pilot, and recommends corrective action.

### **2003 - 2014        FLIGHT ENGINEER C-130 H3, 182D AIRLIFT WING, PEORIA IL**

Created web-based training tools that are used to insure currencies in the squadron for all crew positions. Created Cold Weather Procedures presentation using HTML that can be presented in front of a group or on an individual's computer, smartphone, or E-Reader. Created web-based training tools for use during FEAR - Flight Engineer Annual Refresher. Developed web-based C-130 aircraft systems simulation software to help pilots and flight engineers identify engine start malfunctions. The software runs on a PHP server and uses HTML, CSS, and Javascript.
